# Standarder får världen att fungera

*SIS (Swedish Standards Institute) är en fristående ideell förening med medlemmar från både privat och offentlig sektor. Vi är en del av det europeiska och globala nätverk som utarbetar internationella standarder. Standarder är dokumenterad kunskap utvecklad av framstående aktörer inom industri, näringsliv och samhälle och befrämjar handel över gränser, bidrar till att processer och produkter blir säkrare samt effektiviserar din verksamhet.*

## Delta och påverka

Som medlem i SIS har du möjlighet att påverka framtida standarder inom ditt område på nationell, europeisk och global nivå. Du får samtidigt tillgång till tidig information om utvecklingen inom din bransch.

## Ta del av det färdiga arbetet

Vi erbjuder våra kunder allt som rör standarder och deras tillämpning. Hos oss kan du köpa alla publikationer du behöver – allt från enskilda standarder, tekniska rapporter och standardpaket till handböcker och onlinetjänster. Genom vår webbtjänst e-nav får du tillgång till ett lättnavigerat bibliotek där alla standarder som är aktuella för ditt företag finns tillgängliga. Standarder och handböcker är källor till kunskap. Vi säljer dem.

## Utveckla din kompetens och lyckas bättre i ditt arbete

Hos SIS kan du gå öppna eller företagsinterna utbildningar kring innehåll och tillämpning av standarder. Genom vår närhet till den internationella utvecklingen och ISO får du rätt kunskap i rätt tid, direkt från källan. Med vår kunskap om standarders möjligheter hjälper vi våra kunder att skapa verklig nytta och lönsamhet i sina verksamheter.

**Vill du veta mer om SIS eller hur standarder kan effektivisera din verksamhet är du välkommen in på [www.sis.se](http://www.sis.se) eller ta kontakt med oss på tel 08-555 523 00.**

# Standards make the world go round

*SIS (Swedish Standards Institute) is an independent non-profit organisation with members from both the private and public sectors. We are part of the European and global network that draws up international standards. Standards consist of documented knowledge developed by prominent actors within the industry, business world and society. They promote cross-border trade, they help to make processes and products safer and they streamline your organisation.*

## Take part and have influence

As a member of SIS you will have the possibility to participate in standardization activities on national, European and global level. The membership in SIS will give you the opportunity to influence future standards and gain access to early stage information about developments within your field.

## Get to know the finished work

We offer our customers everything in connection with standards and their application. You can purchase all the publications you need from us - everything from individual standards, technical reports and standard packages through to manuals and online services. Our web service e-nav gives you access to an easy-to-navigate library where all standards that are relevant to your company are available. Standards and manuals are sources of knowledge. We sell them.

## Increase understanding and improve perception

With SIS you can undergo either shared or in-house training in the content and application of standards. Thanks to our proximity to international development and ISO you receive the right knowledge at the right time, direct from the source. With our knowledge about the potential of standards, we assist our customers in creating tangible benefit and profitability in their organisations.

**If you want to know more about SIS, or how standards can streamline your organisation, please visit [www.sis.se](http://www.sis.se) or contact us on phone +46 (0)8-555 523 00**

Europastandarden EN 1729-2:2012+A1:2015 gäller som svensk standard. Detta dokument innehåller den officiella engelska versionen av EN 1729-2:2012+A1:2015.

Denna standard ersätter SS-EN 1729-2:2012, utgåva 2.

The European Standard EN 1729-2:2012+A1:2015 has the status of a Swedish Standard. This document contains the official English version of EN 1729-2:2012+A1:2015.

This standard supersedes the Swedish Standard SS-EN 1729-2:2012, edition 2.

© Copyright/Upphovsrätten till denna produkt tillhör SIS, Swedish Standards Institute, Stockholm, Sverige. Användningen av denna produkt regleras av slutanvändarlicensen som återfinns i denna produkt, se standardens sista sidor.

*Uppllysningar om sakinnehållet i standarden lämnas av SIS, Swedish Standards Institute, telefon 08-555 520 00. Standarder kan beställas hos SIS Förlag AB som även lämnar allmänna upplysningar om svensk och utländsk standard.*

*Information about the content of the standard is available from the Swedish Standards Institute (SIS), telephone +46 8 555 520 00. Standards may be ordered from SIS Förlag AB, who can also provide general information about Swedish and foreign standards.*

Denna standard är framtagen av kommittén för Möbler, SIS/TK 391.

Har du synpunkter på innehållet i den här standarden, vill du delta i ett kommande revideringsarbete eller vara med och ta fram andra standarder inom området? Gå in på [www.sis.se](http://www.sis.se) - där hittar du mer information.

EUROPEAN STANDARD

**EN 1729-2:2012+A1**

NORME EUROPÉENNE

EUROPÄISCHE NORM

December 2015

ICS 97.140

Supersedes EN 1729-2:2012

English Version

## Furniture - Chairs and tables for educational institutions - Part 2: Safety requirements and test methods

Meubles - Chaises et tables pour les établissements  
d'enseignement - Partie 2: Exigences de sécurité et  
méthodes d'essai

Möbel - Stühle und Tische für Bildungseinrichtungen -  
Teil 2: Sicherheitstechnische Anforderungen und  
Prüfverfahren

This European Standard was approved by CEN on 9 December 2011 and includes Amendment 1 approved by CEN on 17 November 2015.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

## SS-EN 1729-2:2012+A1:2016 (E)

### European foreword

This document (EN 1729-2:2012+A1:2015) has been prepared by Technical Committee CEN/TC 207 "Furniture", the secretariat of which is held by UNI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by June 2016, and conflicting national standards shall be withdrawn at the latest by June 2016.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This document includes Amendment 1 approved by CEN on 2015-11-17.

This document supersedes A1 EN 1729-2:2012 A1.

The start and finish of text introduced or altered by amendment is indicated in the text by tags A1 A1.

EN 1729 consists of the following parts under the general title "Furniture – Chairs and tables for educational institutions":

- *Part 1: Functional dimensions;*
- *Part 2: Safety requirements and test methods.*

The main changes with respect to the previous edition are listed below:

- a) additional consideration of swivel chairs;
- b) additional consideration of chairs with arm rests;
- c) clarification of seat loading points and back loading points;
- d) amendment of some loads and forces;
- e) modification of A1 Annex A A1 (informative) "Test method for determination of stability of chairs placed on tabletops".

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

## 1 Scope

This European Standard specifies safety requirements and test methods for chairs and tables for general educational purposes in educational institutions.

It applies to furniture for use with laptop computers or portable devices, but not to special purpose workstations, e.g. laboratories, ranked seating and workshops.

A1 *deleted text* A1

A1 The A1 figures illustrate test principles only and cannot be used to carry out the tests.

NOTE EN 1729-1 specifies functional dimensions and marking of chairs and tables for general educational purposes.

## 2 Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 1022:2005, *Domestic furniture — Seating — Determination of stability*

EN 1335-3:2009, *Office furniture — Office work chair — Part 3: Test methods*

A1 EN 1728:2012, *Furniture — Seating — Test methods for the determination of strength and durability* A1

EN 1729-1, *Furniture — Chairs and tables for educational institutions — Part 1: Functional dimensions*

A1 EN 1730:2012, *Furniture — Tables — Test methods for the determination of stability, strength and durability* A1

EN 13722, *Furniture — Assessment of the surface gloss*

A1 *deleted text* A1

## 3 General test conditions

### 3.1 Testing ranges of chairs and tables

If chairs in a range of size marks are all manufactured with the same design details and geometry, it is only necessary to carry out the complete test programme on the highest size mark (including multi-size and height adjustable) in the range, plus additional stability tests on the smallest size mark in the range.

If tables in a range of size marks are all manufactured with the same design details and geometry, it is only necessary to carry out the complete test programme on the highest size mark in the range.

In the event of failure in any of the chairs/tables in the above test programme, it is necessary to carry out the complete test programme on each chair/table size mark individually.

### 3.2 Testing of height adjustable and multi-size chairs and tables

Where tables or chairs can be set to a number of different configurations the worst case configuration shall be tested.

## SS-EN 1729-2:2012+A1:2016 (E)

Where tables and chairs can be adjusted to suit multiple size marks the item shall be assessed in accordance with EN 1729-1 at all size marks, and structural testing shall be carried out at the highest size mark only.

### 3.3 Sequence of testing

Testing shall be carried out according to EN 1729-1 prior to testing in EN 1729-2. The tests shall be carried out in the order that the clauses are numbered in this European Standard.

## 4 Safety requirements

In order to minimise the risk of personal injury or damage to clothing, the following requirements apply:

- a) edges of the seat, back rest and arm rests, which are in contact with the user when sitting in the chair shall be rounded with a minimum 2 mm radius or chamfer;
- b) edges of the handles shall be rounded with a minimum 2 mm radius in the direction of the force applied;
- c) all other edges and corners with which the user may come into contact with during normal use shall be smooth, rounded or chamfered and shall have no burrs;
- d) distance between accessible moving parts operated by powered mechanisms, e.g. gas lifts, shall always be either  $< 8$  mm or  $\geq 25$  mm;
- e) with the exception of setting up or folding tables and chairs, there shall be no accessible gaps  $> 8$  mm and  $< 25$  mm created during normal movements and actions;
- f) adjustment controls shall not operate inadvertently or accidentally;
- g) open ends and feet of tubular components shall be capped or otherwise closed;
- h) parts shall not be detachable without the use of an appropriate tool;
- i) parts which are lubricated shall be covered in order to avoid staining;
- j) the finish of the work surface shall not exceed silky matt (corresponding to 45 gloss units or to a  $60^\circ$  reflectometer value of less than 20) to minimise specular reflections in accordance with EN 13722 at  $60^\circ$ ;
- k) chairs shall not overturn when tested as specified in 5.2;
- l) chairs shall show no structural failure which can affect safety when tested for strength and durability as specified in 5.3 and they shall still fulfil their function. For overload tests there shall be no visible fracture or breakage;
- m) tables shall not overturn when tested in accordance with  $\text{A}_1$  EN 1730:2012, 7.2  $\text{A}_1$ ;
- n) tables shall show no structural failure which can affect safety when tested for strength and durability as specified in 6.2 and they shall still fulfil its function.

## 5 Testing of chairs

### 5.1 General

When references are made to EN 1022 or EN 1728, the method of determining the seat and back loading points specified is not always suitable for educational seating. For the purpose of this European Standard, the seat loading point shall be measured forward of the point S (EN 1729-1) and the back loading point shall be measured upwards from a point on the seat vertically below point S.

NOTE The static loads specified in Clause 5 reproduce the loads applied by adults, who may occasionally sit on small chairs. These loads are sufficiently large to make it unnecessary to carry out durability tests on the smaller chair size marks.
